MS-SM02

DUST-PROOF DISPOSABLE
PROTECTIVE MASK

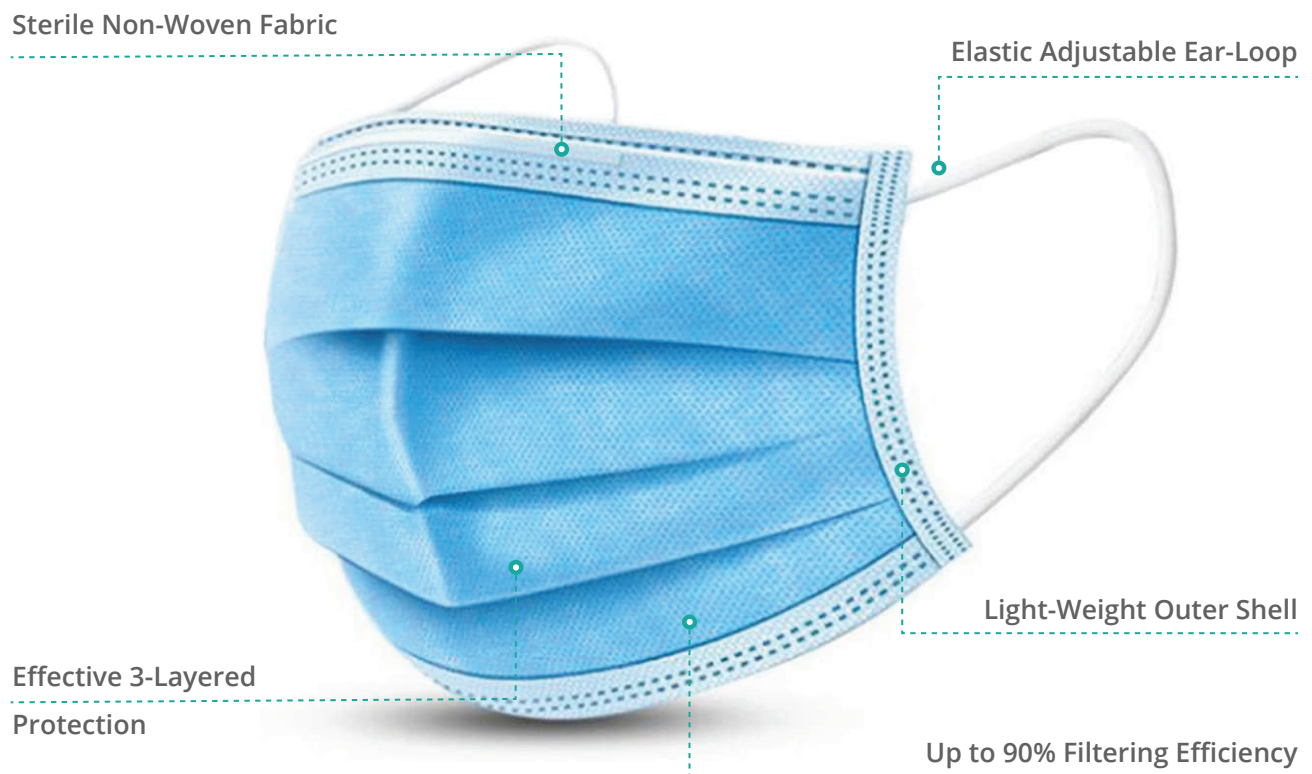

MS-SM02

DUST-PROOF DISPOSABLE PROTECTIVE MASK

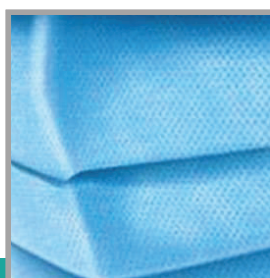

OVERVIEW

The MS-SM02 disposable protective masks are designed to provide air filtration to the wearer while also protecting against industrial dust, automobile exhaust, pollen, etc. The MS-SM02 comes in a sterile, nonwoven, and 3-layered fabric with 90% filtration efficiency, making it an ideal choice both for industrial and civilian uses. Designed to fit most adult men and women, the MS-SM02 masks have enclosed nose pieces to assist in adjusting to the contours of the face, ensuring everyday protection and comfort.

90% FILTRATION EFFICIENCY

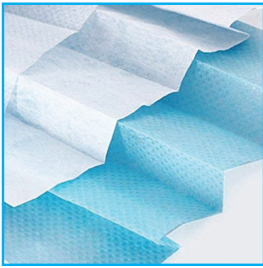

90% efficiency coupled with low breathing resistance provides maximum safety

ADJUSTABLE NOSE CLIP

Designed with adjustable nose clip, for comfort with spectacles

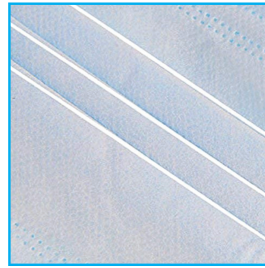

3-LAYERED DESIGN

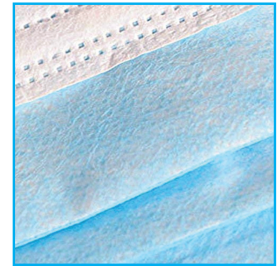

Latex-free,
skin friendly

Anti-dust,
breathable

Premium
finish quality

Anti-odour,
soft fabric

FEATURES

- Made of sterile non-woven fiber with soft and breathable fabric
- Elastic ear-loop, which can be adjusted and size fits for most adult men or women
- With a 3-layered filtering structure, the mask is dust resistant and offers 90% filtration efficiency
- Anti-dust & anti-odour, light-weight and soft inner layer make the mask comfortable to wear
- Protection from dust, small particles on air, pollen and much more.

HOW TO USE

Step 1.

Hold the mask via the ear loops, and ensure that it covers your mouth and nose.
Then place the loops over your ears

Step 2.

Pinch the metal strip or stiff edge of the mask so that it takes the shape of your nose bridge

Step 3.

Once the mask is soiled, remove it by holding the ear loops

Step 4.

Dispose soiled mask into the bins

Step 5.

Wash your hands thoroughly with soap and water after disposing the mask
