DISPOSABLE ANTI-POLLUTION  
PROTECTIVE MASKS

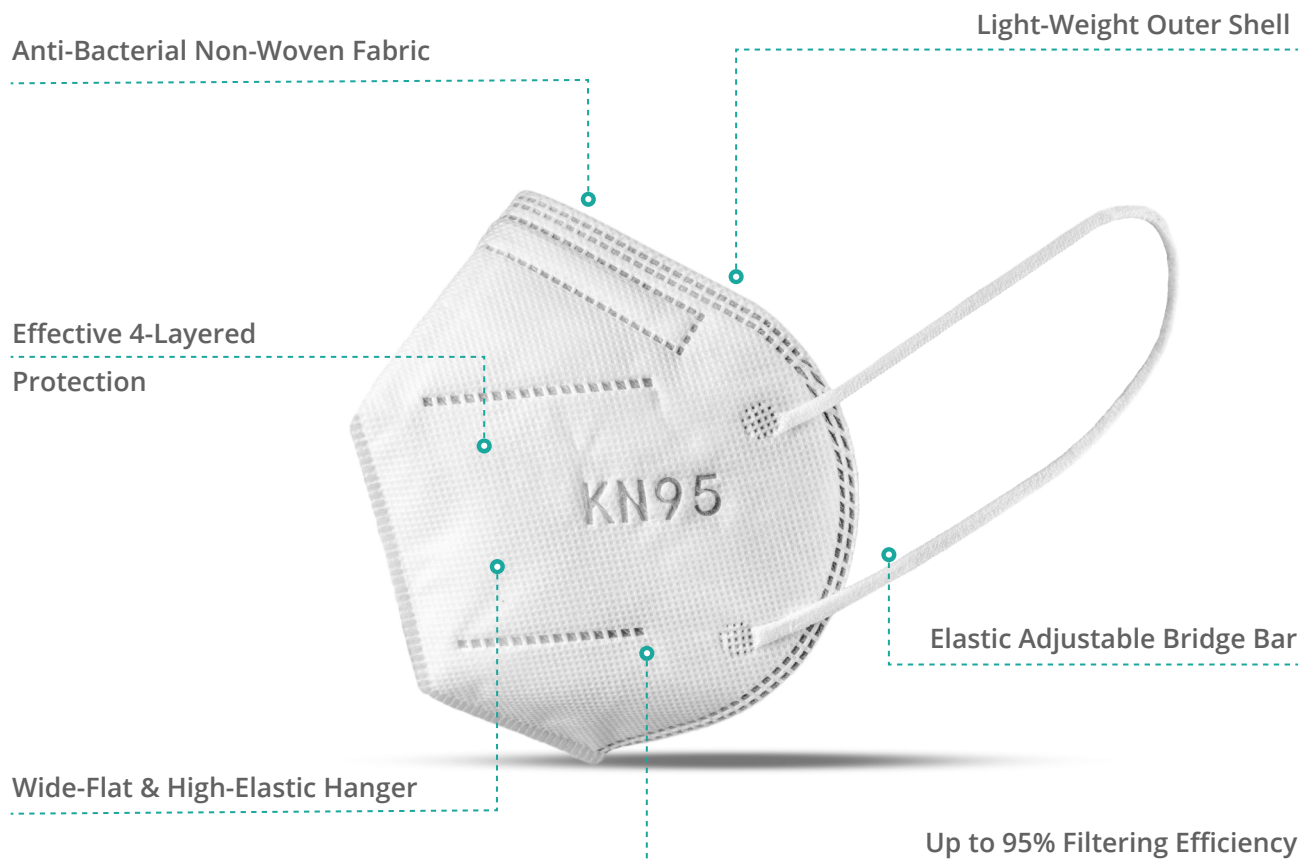

# MS-KN95

## DISPOSABLE ANTI-POLLUTION PROTECTIVE MASKS

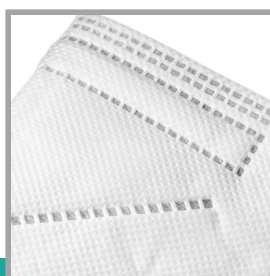

### OVERVIEW

Although there have been advancements in the design of protective masks, the MS-KN95 masks provide a better alternative. Using advanced technology to bring about better crush resistance and 4-layered light-weight film, the MS-KN95 protective masks offer an impeccable choice both for medical and civilian uses. Designed to fit most face shapes and sizes, the MS-KN95 protective masks offer an economical yet outstanding respiratory protection against haze, dust and many other substances.

#### 95% FILTRATION EFFICIENCY

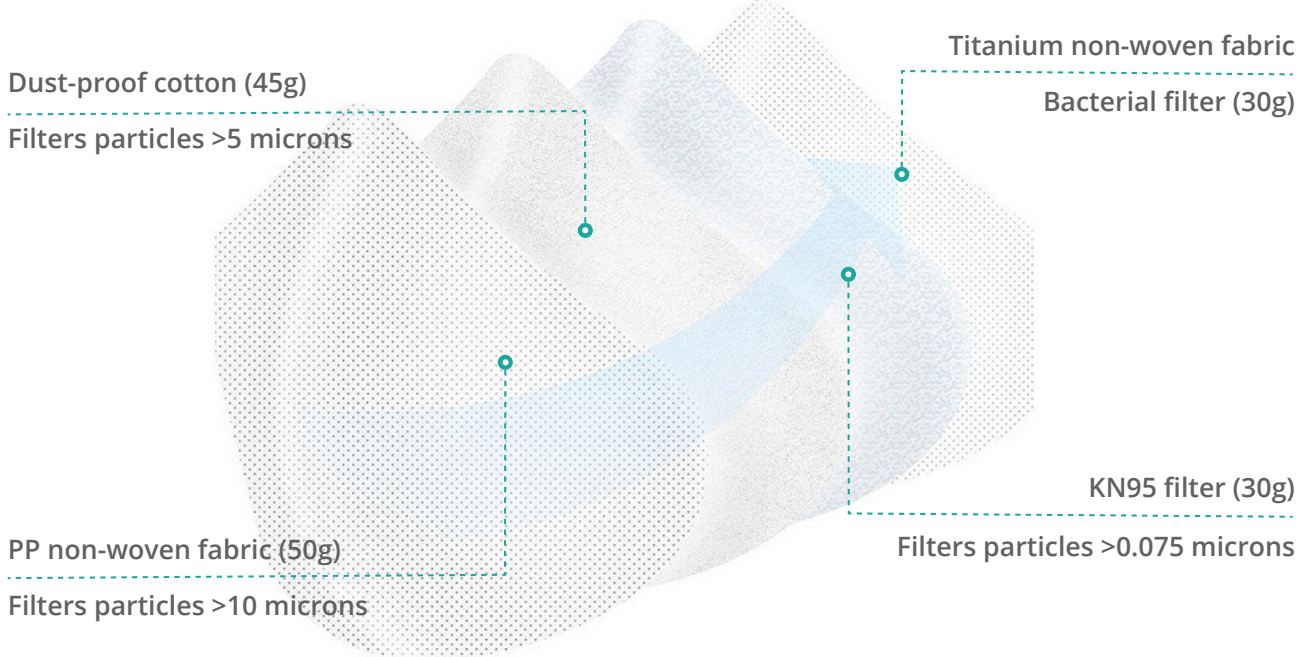

95% efficiency coupled with low breathing resistance provides maximum safety

#### ADJUSTABLE NOSE CLIP

Cup shape design with adjustable nose clip, for comfort with spectacles

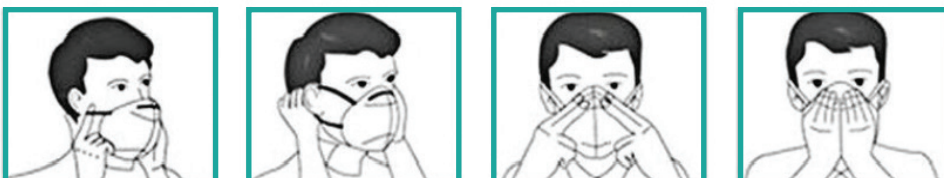

## 4-LAYERED DESIGN

## FEATURES

- Designed to suit most face shapes and sizes and provides outstanding respiratory protection
- Economical choice, protective against many substances, including pandemic diseases
- With a 4-layered filtering structure, the mask is dust resistant and offers 95% filtration efficiency
- The light-weight and soft inner layer make the mask comfortable to wear even for long hours
- The rigid outer shell of the mask ensures protection even in high humidity or moist environments
- 95% filtration efficiency on non-oily particles >0.075 microns

## HOW TO USE

1. Place the nose clip part of the mask facing up, the sides facing your face, and then pull the ear-straps with both your hands
2. Place the mask against the chin and hang the ear-band at the back of your ears
3. Keep your fingers on the center of the nose clip and press inwards for the mask to fit the shape of the nose
4. Always check if the mask is tightly held to your face when using it
